

Road Safety Studies

Bitzios Consulting undertakes a variety of road safety studies for local and state government as well as for the private sector. We have a number of accredited road safety auditors on staff to undertake audits of varying complexity anywhere in Australia. We also regularly undertake speed limit reviews, Performance Based Standard (PBS) route assessments, signage and line-marking reviews, pedestrian audits, cycleway and cycle-facility design audits and safety risk assessments. We are national leaders in digital sign safety assessments. Importantly, our road safety engineers are not just accredited auditors but are experienced traffic engineers and transport planners who are able to understand safety issues from a broader perspective.

Road Safety Audits

- Rio Tinto Mine Traffic Safety Review and Guidelines
- Smithfield Bypass Road Safety Audits
- Ipswich Motorway Road Safety Audits
